RATIONALE:

This resolution would affirm the Diocese’s commitment to the vision of our Baptismal Covenant, “to respect the dignity of every human being”, including persons with disabilities and their families.

This resolution would affirm the establishment of a study group/program/committee/ministry on Disability Advocacy and Inclusion. Central to the establishment of this study group/program/committee/ministry is the full inclusion of persons with disabilities and their families into the life of the Diocese and its congregations.

This resolution would also acknowledge that The Episcopal Church has a legacy of numerous General Convention resolutions, policy statements and program initiatives that seek full inclusion of persons with disabilities and would commit the Diocese of the Central Gulf Coast to aligning itself with these resolutions, policies, and programs.

Finally, the resolution would approve for the Bishop to appoint members of the Study Group/Program/Committee/Ministry and encourage each parish and mission to designate a persons or persons to be responsible for disability advocacy and inclusion. Assigning responsibility is a critical step on the path toward actually achieving full inclusion.
